Made [in the U.S.A.] by

The Hartz Mountain Corporation 400 Plaza Drive

Secaucus, NJ 07094 (U.S.A.)

READ ENTIRE LABEL BEFORE EACH USE.

USE ONLY ON DOGS.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

If On Skin Or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1- 800-275-1414 [1-800-234-2269] [1-800-781-4738] twenty-four (24) hours per day, seven (7) days per week.

Note to Physicians and Veterinarians: This product contains tetrachlorvinphos (an organophosphate) which is a cholinesterase inhibitor. Cholinergic symptoms may include salivation, miosis, incoordination, muscle fasciculation and/or weakness, vomiting and diarrhea. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine. Call 1-800-275-1414 [1-800-234-2269] [1-800-781-4738] or your local Poison Control Center for further information.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Restrictions: Do not use on puppies under **12** weeks of age. Do not use this product on dogs simultaneously or within 30 days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. This product is intended for use only as an insecticide.

Precautions: Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If used on pregnant or nursing dogs, do not replace collar until the puppies are at least **12** weeks old. Sensitivity may occur after using ANY pesticide product for pets. Some animals may become irritated by any collar if it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the dog. If signs of sensitivity occur, remove the collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not unroll collar until ready to use.

Application Instructions:

REMOVE COLLAR FROM PACKAGE, UNROLL AND STRETCH TO ACTIVATE

INSECTICIDE. Place the collar around the dog's neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. A properly fitted collar is one that, when fastened, will snugly slide over the dog's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length.

*{Note to Reviewer: Text in [brackets] in the following paragraph contains additional **Optional Text** within the Directions for Use section.}*

[[Kills fleas and ticks common to dogs, including the Deer tick, which may carry Lyme disease, and the Rocky Mountain wood tick, which may carry Rocky Mountain spotted fever.] The collar will begin to kill fleas and ticks immediately. [Its full protection against harder to kill ticks will be built up within a few days after being placed on the pet.] For continuous flea and tick protection under normal conditions replace the collar every seven months. The collar kills ticks for 5 months and aids in their control an additional 2 months. Under conditions where dogs are exposed to severe flea and tick infestations it may be necessary to replace the collar more frequently; however, do not replace the collar more frequently than every 5 months. Wetting will not impair the collar's effectiveness or the pet's protection. If the dog goes swimming or is out in the rain it is not necessary to remove the collar. The collar may be worn with a regular collar. It is recommended that the pet's bedding or sleeping quarters be treated for flea and tick control with a product registered for this use such as Hartz UltraGuard Plus Flea & Tick Home Spray.]

{Note to Reviewer: text in braces {} is for informational purposes and will not appear on the label. Text in brackets [] is optional, and may or may not appear on the end use label. Text in parentheses () will appear on the end use label.}

{ALTERNATE DIRECTIONS FOR USE with Decorative Collars [with (mesh) (net) (screen) (web) underside]}

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Remove collar [collar insert] from package. Unroll and stretch to activate insecticide.

Do not use on puppies under **12** weeks old. Do not unroll collar until ready to use. Place the collar around the dog's [puppy's] [dog's or puppy's] neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. A properly fitted collar is one that, when fastened, will snugly slide over the pet's head. Leave 2 or 3 inches on the collar for extra adjustment and cut off and dispose of the extra length. Slide collar into collar insert.

The collar [collar insert] is intended for use only as an insecticide.

The collar will begin to kill fleas, ticks and flea eggs and larvae immediately. For continuous [flea and tick] protection under normal conditions replace the collar every seven [7] months. Under conditions where pets are exposed to severe flea and tick infestations, it may be necessary to replace the collar more frequently. However, do not replace the collar more frequently than every 5 months.

Wetting will not impair the collar's effectiveness or the pet's protection. If the pet goes swimming or is out in the rain it is not necessary to remove the collar. The collar may be worn with a regular collar.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store in a cool, dry (preferably locked) area that is inaccessible to children and animals.

Pesticide Disposal: If empty: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: This product contains a chemical known to the State of California to cause cancer.
